### Regional Experience

Americas

Geo Brown is an information technology professional with more than 20 years of experience. He has acted as a digital forensic investigation expert on over 50 occasions.

Geo has testified in depositions and arbitration regarding trade secret misappropriation and data security. He has acted as an expert witness for computer forensics, investigations, e-discovery, data analytics, data privacy and data breach.

Geo has undertaken hundreds of computer forensic investigations, performed on-site analysis of cyber security breaches, and has assisted both corporate and law firm clients with the preservation and management of large volumes of data in response to civil litigation, government inquiries, and internal investigations. He practices, specializes, and opines in electronic discovery, digital forensics and data analytics and provides cost effective, defensible analysis.

Geo specialises in safeguarding intellectual property and undertaking digital investigations. He has significant experience leading highly sensitive and complex matters ranging from misappropriation of trade secrets, internal investigations, breach of contract and business interruption to employment disputes, fraud investigations, and wage and hour class actions, among others, in a wide variety of industries.

Geo is a member of the High Technology Crime Investigation Association. He is a Certified EnCase Computer Examiner, a Magnet Certified Forensic Examiner, and a Microsoft Certified Systems Engineer.
